**Roger M. Vogler, P.E.
Chief, Engineering Division
Middle East District**

Roger M. Vogler serves as Chief of the Engineering Division for the U.S. Army Corps of Engineers (USACE) Middle East District (MED), located in Winchester, Virginia. This division is one of three major divisions within the District responsible for accomplishing projects that meet customer requirements.

The Middle East District is responsible for providing engineering, construction, and related services in the Middle East, Central Asia, and other areas as required. Its work includes designing and constructing facilities for use by U.S. forces, performing engineering activities for other U.S. government and foreign agencies, and providing operations and maintenance services for various customers. In addition, the District provides project management, engineering, contracting and support services to USACE districts in Iraq and Afghanistan. MED was renamed from the Transatlantic Programs Center (TAC) on Oct. 1, 2009, following the activation of the Transatlantic Division.

In his position, Mr. Vogler is responsible for overseeing and providing all design services and technical requirements for MED projects. He has held the position since April 2005. From March through October 2007, Mr. Vogler served as the TAC's Acting Deputy for Programs and Project Management, where he served as the senior civilian responsible for the organization's overall project execution.

Before his assignments at TAC, Mr. Vogler served as the Chief of the Military Integration Division in the Corps of Engineers' Great Lakes and Ohio River Division from August 2002 through April 2005. He also deployed to Iraq in 2003 with Task Force Restore Iraqi Electricity as the senior program manager for the \$1 billion program.

His Corps of Engineers assignments have included resident engineer for the Huntsville Engineering and Support Center's Chemical Demilitarization Program at the Umatilla and Pine Bluff Resident Offices; resident engineer in Wuerzburg, Germany, where he was responsible for supporting six Army Base Support Battalions throughout southern Germany; area engineer for the Detroit Area Office; and project engineer and Support for Others program coordinator for Detroit District. He began his Corps of Engineers career with the Detroit District in June 1992.

Mr. Vogler, commissioned an engineer officer through Officer Candidate School in 1985, spent his seven-year military career in construction battalions, including commanding an engineer company during Operation Desert Storm.

He has a bachelor's degree in chemical engineering from the University of Michigan, a master's degree in engineering administration from George Washington University, and a master's degree in Hazardous Waste Management from Wayne State University.

He is a registered professional engineer in the state of Ohio, a certified Project Management Professional, and a member of the Army Acquisition Corps.
